1988 Yamaha Outboard V6 EXCEL [V6EXCELXG] - Parts Lookup ...

As Frontier points out, the 1985 "V6 Special" was rated at 220 HP. As to what actual HP it put out, well, those debates are always an interesting topic of discussion. The late 1980's Yamaha v6's were all very simple, strong, engines. The model 225 HP V6 Excel's were ca. 1989. Liteamorn: posted 03-07-2011 05:01 PM ET (US)

Is there a way to tell if the shift shaft has already been replaced without digging too deep? I'll get the service manual and if an extensive checkup turns out good, maybe I'll take a crack at that shift rod.

Yamaha Excel: Major Problems - Moderated Discussion Areas

If you run full throttle on a smaller engine all the time, you'll be burning more fuel than if you had a bigger engine and drove at three-quarters throttle. On the smaller end of the scale, you could find a 70 hp Yamaha powerhead or a Yamaha 150 powerhead. If you have greater needs, you could get a Yamaha 200 powerhead or a Yamaha f350 powerhead.

1987 Yamaha 90 ETLH Outboard service repair maintenance ...

I have a 1986 or 1987 Yamaha Excel outboard - 230 hp. I've had it serviced by a local mechanic this past 5 years or so. Last June we took the boat ('86 or '87 Boston Whaler Revenge) out after the mechanic fixed the oil injector system. It worked fine for a short while, but then would not maintain rpms in excess of 2,000.
