Farmers' adaptation to CC occurs within  
a socio-ecological context, and their  
perception determines the acceptability  
of adaptation measures posed by policy  
domains (Tam and McDaniels, 2013).  
Understanding farmers' perceptions of  
CC helps to understand their behaviors  
about adjustments they made/will make  
in their farming practices in order to  
respond to CC consequences ( Tambo  
and Abdoulaye, 2013 ).
