### The Mind Workout Twenty Steps

Developed as a result of Mark Freeman's own recovery from mental illness, The Mind Workout combines mindfulness, Cognitive Behavioural Therapy (CBT) and Acceptance and Commitment Therapy (ACT). It outlines twenty easy-to-follow steps you can take to free yourself from the ways of thinking and behaving that cause mental health challenges in your life - from cutting out the compulsions that cause uncertainty, anxiety and distress to relieving stress and distraction.

The "Best Workout" is the one you're likely to keep doing. It has to be fun to do, while providing the intensity needed to lose weight. Research has found the 10-20-30 Workout best fits this criteria. To find the best workout for your body, consider these two things: 1) It has to have enough intensity, while also 2) being a routine you can enjoy.

Questions also remain about which type of exercise is most helpful. Most studies have focused on aerobic exercise, though some research suggests weight training might also be effective, Smits says. Then there's the realm of mind-body exercises like yoga, which have been practiced for centuries but have yet to be thoroughly studied.
